

# The New TPM Implementation Program For Production Innovation

For Fabrication  
and Assembly  
2018 **English  
Version**

## TPM® New Implementation Program in Fabrication and Assembly Industries [2018]

This document offers an easy-to-understand commentary on implementation steps in accordance with TPM conditions already in motion in the fabrication and assembly industries. In other words, it states the sixteen major losses which obstruct manufacturing efficiency for fabrication and assembly, and offers commentary and new case studies on improvement programs for the seven major losses in individual improvement, which include “cutting blade loss.” The eight pillars for TPM implementation which includes autonomous maintenance, quality maintenance, and planned maintenance also correspond to TPM implementation in fabrication and assembly.

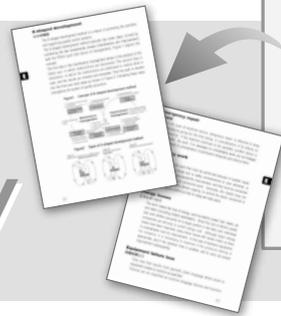

● Price: **12,320 yen** (including tax) ● Soft cover book, **600 pages**
